

Fast Exfoliation of Graphite into Pristine Graphene

Liu W, Tanna VA, Yavitt BY, Dimitrakopoulos C, Winter HH; UMass Amherst

NSF CMMI-1334460; *ACS Appl Mater Interfaces* (2015) 7:27027-27030

Patent: Attorney Docket No. UMA-16-018PRO; Serial No 62/258,770

Fast Liquid Exfoliation Method: Graphite particles, suspended in N-methyl-2-pyrrolidone(NMP), get subjected to flow treatment followed by mild sonication.
